

CONTRAST FREESTYLE™

Product

Contrast Freestyle™ is our flexible edging system that provides maximum creative freedom. Can be delivered up to 1200 mm in height and 10 mm in thickness.

Available in untreated, galvanized or corten steel.

Choose a finish;

Powder coating in all RAL-colors. Gives the opportunity to create unique expressions.

Powder coating with Rus10, that combines the beautiful corten steel look with the benefits of powder coating.

Uses

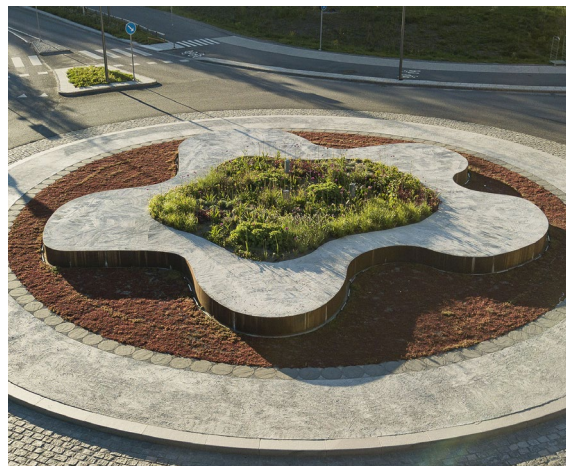

Suitable for projects where creative freedom is desired. It is also possible to integrate benches in the steel edge, which will be produced specially for your product and delivered as an assembled solution.

Notes

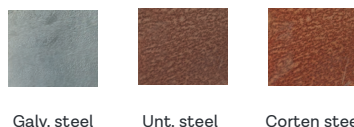

All steel edges and benches supplied by Milford require no further welding on site, but are installed according to the instructions provided.

CAD drawings are available from Milford.

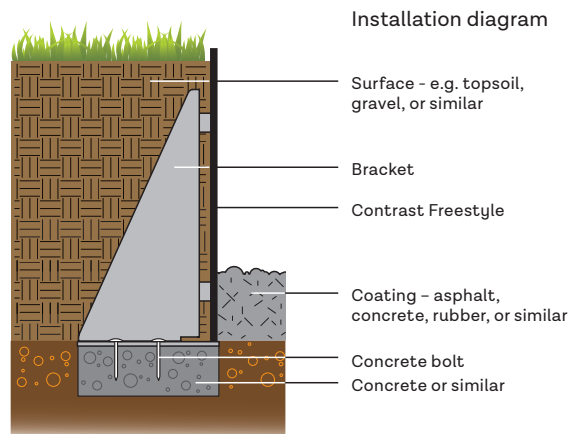

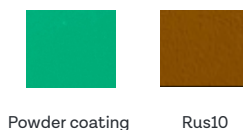

To be installed according to Milford's instructions.
